

## **Research Technician position at the Institute of Environmental Sciences and Technology (ICTA-UAB).**

The Institute of Environmental Science and Technology at the Universitat Autònoma de Barcelona (ICTA-UAB) offers a Technician Position (« Tècnic Especialista de Suport a la Recerca »), in the framework of the “María de Maeztu” Strategic Research Programme.

ICTA-UAB is implementing a Strategic Research Programme intended to consolidate its scientific capabilities, contribute to the leadership of Spanish research and act as an international pole of attraction for talent. The plan addresses major global environmental and sustainability challenges related to anthropogenic climate change, focusing on establishing the current state of knowledge on climate change and its socio-economic impacts, and on putting forward transformative solutions at the local and regional levels.

### **Tasks**

- ✓ To collaborate in the research project entitled “Biological implications and economic values of changes in relevant Iberian insects due to climate change”,
- ✓ To collect data in order to build a database about invasive species arrived to Iberia (Spain and Portugal).
- ✓ To participate in scientific events to disseminate the results of the research project
- ✓ To submit a scientific publication during the contract.

### **Qualifications**

Candidates must hold a MSc Degree in Environmental Sciences. Experience in research projects will be taken into consideration. Candidates must prove their ability to communicate fluently in English.

### **Contract terms**

This is an eight-month contract. The contract will start on June 15, 2019.

The monthly gross salary is 1824,82 €. The work period is from Monday to Friday, from 9 AM to 5 PM (37,5 hours a week, full-time position).

### **Application procedure**

Interested candidates should send the application via email ([pr.mdm.icta@uab.cat](mailto:pr.mdm.icta@uab.cat)), by **May 16, 2019**, to receive full consideration. The application should include a current Curriculum Vitae of the applicant, copy of academic certificates and the documentation proving the alleged merits.

The **selection process** will consist of a curricular pre-selection, and an interview in English. The results will be communicated to the candidates by email. The resolution of the process will be on June 15, 2019.
